1. Flyer
EXPECTED RESULTS

ENABLING POLICY
The project provides insight and information to decision makers to promote the insertion of energy poverty within the political agenda so that it may be included in policies and strategies.

PREPARING THE GROUND FOR INVESTMENT
The set objective of the ASSIST action is to reduce the energy consumption (and consequently energy bills) of engaged consumers.

BUILDING CAPACITIES AND SKILLS
381 trained volunteers (75 trained HEA in each country, except for UK where 6 HEA will be trained) and the creation of advice and supporting tools addressed to 4500 energy users.

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 754051.
**WHAT'S ASSIST?**

ASSIST offers a two-way approach to energy poverty: active engaging of consumers in the energy market, and a positive change of behaviour in relation to energy consumption and to influence design of policies at all levels. It will do so by:

- Creating unique and specialized services for the vulnerable communities through a European network of trained active Home Energy Advisors (HEA).

- Increasing the knowledge of political stakeholders on consumers' vulnerability and energy poverty so as to promote the design-take up of policies to tackle the phenomena.

**HOW DOES IT WORK?**

**PHASE 1 - IN-DEPTH KNOWLEDGE**

The project will generate first hand in-depth knowledge on energy poverty in Europe which will constitute the contents of the “Vulnerable Consumers and Fuel Poverty Report”.

**PHASE 2 - HOME ENERGY ADVISORS (HEA) TRAINING**

ASSIST project introduces an innovative energy advisor, trained on social, communication and technical aspects.

**PHASE 3 - HOME ENERGY ADVISORS (HEA) NETWORK**

It will provide energy users with increased qualified, trustworthy, accessible, specific and target-oriented advice to be more efficient and/or better satisfy their energy needs.

**PHASE 4 - ASSIST ACTION**

Energy users will be led hand-in-hand throughout a pilot action to demonstrate that a good domestic energy efficient process is technically and economically feasible and that it leads to energy saving.

**PHASE 5 - POLICY ORIENTATION**

The results of all the phases will enable National and European stakeholders to measure household energy needs and target specific measures to low-income households living in energy inefficient houses.
2. Poster
EXPECTED RESULTS

**ENABLING POLICY**
Insertion of energy poverty within the political agenda.

**PREPARING THE GROUND FOR INVESTMENT**
Reduction of energy consumption of engaged energy users.

**BUILDING CAPACITIES AND SKILLS**
381 trained volunteers (75 trained HEA in each country, except for UK where 6 HEA will be trained) and creation of advice and supporting tools addressed to 4500 energy users.

**PARTNERS**

**EXPECTED RESULTS**

**A TWO-WAY APPROACH TO ENERGY POVERTY:**

- Active engaging of consumers in the energy market through a change of behaviour in relation to energy consumption.
- Influencing the design of policies at all levels to tackle fuel poverty issues.

**IN-DEPTH KNOWLEDGE**
First hand in-depth knowledge on energy poverty in Europe compiled in the “Vulnerable Consumers and Fuel Poverty Report”.

**HOME ENERGY ADVISORS (HEA) TRAINING**
Introducing an innovative energy advisor: trained on social, communication and technical aspects to better support vulnerable consumers.

**HOME ENERGY ADVISORS (HEA) NETWORK**
Increased qualified, trustworthy, accessible, specific and target-oriented advice addressed to energy users, to increase efficiency and/or better satisfy their needs.

**ASSIST ACTION**
Energy users led hand-in-hand to demonstrate that a good domestic energy efficient process is technically and economically feasible and that it leads to energy saving.

**POLICY ORIENTATION**
National and European stakeholders able to measure household energy needs and target specific measures to low-income households living in energy inefficient houses.

3. Roll up
**OBJECTIVES**

Where?

Broaden understanding on European energy poverty incidence and increase the knowledge of political stakeholders on consumers’ vulnerability and energy poverty so as to promote the design-take up of policies to tackle the phenomena.

Identify best practices and needs and provide a baseline to demonstrate its effectiveness and to inform work towards policy orientation.

Create a European network with unique and specialized services for the vulnerable communities: the Home Energy Advisors (HEA).

4. Slide presentation
Support Network for Household Energy Saving

Project Guidelines 2017
ASSIST Objectives: Strategic and Specific

• Contribute to tackle fuel poverty
• Contribute to tackle the main barriers of the energy market faced by vulnerable consumers
• Contribute to support vulnerable consumers to be more efficient with their domestic energy consumption (electricity and gas)

Creation, networking and action of an innovative professional figure to support vulnerable consumers in their domestic energy consumption, the Home Energy Advisor (HEA)
ASSIST Objectives: Strategic and Specific

Contribute to tackle fuel poverty

Support vulnerable consumers with their domestic energy management (reduce and / or improve energy consumption)
ASSIST Background

2. European Horizon2020 project SMART-UP “Consumers Empowerment in a Smart Meter World”.
3. European FP7 project INSIGHT-E “An Energy think tank informing the European Commission”.
4. European Erasmus+ project ENACT “Energy Auditing Competencies, Training and Profiles”
5. European IEE project ACHIEVE “ACtions in low income. Households to Improve energy efficiency through Visits and Energy diagnosis”.
6. European IEE project ENERGY AMBASSADORS “Campaign to fight against fuel poverty and raise awareness on energy efficiency and energy savings”.
7. European IEE project SeRENADE.
8. European IEE project EPEE “European fuel Poverty and Energy Efficiency”.
10. Ongoing European initiatives.
Assist Background

The European Commission established the Citizens' Energy Forum in 2007 and has met on an annual basis in London – last meeting in February 2016. The aim of the Forum is to create competitive, energy-efficient and fair retail markets for consumers. Several Working Groups have been established to focus on issues raised in the Forum, covering topics such as vulnerable consumers, price transparency, and consumers as energy market agents.

Useful publications
- Guidance document on Vulnerable Consumers – November 2013

ASSIST Background

2. European Horizon2020 project SMART-UP

**Duration:** March 2015 to February 2013  
**Partners countries:** FRANCE, ITALY, MALTA, SPAIN, UK  
**Strategic Objectives:** To train 20 – 25 social workers / frontline staff in each country on social – energy issues to support vulnerable consumers and through them deliver enhanced advice to 1000 vulnerable consumers on energy efficiency. Implement a small scale pilot addressing 60 – 65 vulnerable consumers in each country to define the best mix of support activities to support vulnerable consumers on energy efficient issues (IHD, telephone call, aftercare service, energy dairy)  
[http://www.smartup-project.eu](http://www.smartup-project.eu)
ASSIST Background

3. European FP7 project INSIGHT

**Duration:** January 2017 to October 2017

**Partners countries:** Croatia, France, Germany, Ireland, Italy, Netherlands, Sweden, Switzerland, UK

**Strategic Objectives:** INSIGHT_E is a European, scientific and multidisciplinary think-tank for energy which informs the European Commission and other energy stakeholders. It supports Energy policy at European level by providing advice on policy options and assessing their potential impact.

**Useful publications**
Measures to protect vulnerable consumers in the energy sector: an assessment of disconnection safeguards, social tariffs and financial transfers (2017)
Energy poverty and vulnerable consumers in the energy sector across the EU: analysis of policies and measures (2016)

ASSIST Background

4. European Erasmus+ project ENACT

Duration: September 2015 to August 2016
Partners countries: ITALY, POLAND, PORTUGAL and SPAIN
Strategic Objectives: To analyse the training, qualification and labour market related to the domestic energy efficiency and define the qualification scheme of an European energy auditor for the domestic sector and prepare, test and validate the relative training course
http://enactplus.eu
ASSIST Background

5. European IEE project ACHIEVE

**Duration:** March 2015 to February 2013  
**Partners countries:** BULGARIA, FRANCE, GERMANY, SLOVENIA, UK  
**Strategic Objectives:** contribute to practical (energy uses and behaviours) and structural (retrofitting buildings) solutions for reduction of fuel poverty in Europe. Long-term unemployed people, volunteers or students are mobilized and trained to develop a large-scale energy advice service towards low-income households facing difficulties with their energy bills. The service is based on home visits, which main purposes are: to understand vulnerable consumers’ energy consumption, bills and habits, and to check their appliances with a set of reporting/analysing tools; 2) to distribute and install a set of free energy and water saving devices, and give advice to the households on how to implement further practical measures for saving energy; 3) to analyse which longer-term solutions can be brought to improve the households’ situation, by linking local actors into a concerted local action plan.

ASSIST Background

6. European IEE project ENERGY AMBASSADORS

**Duration:** May 2009 to October 2011

**Partners countries:** FRANCE, UK, SWEDEN, SPAIN, ROMANIA, BULGARIA, DENMARK, GREECE, ITALY.

**Strategic Objectives:** To work with health and social care organizations to create a better understanding of the problems of fuel poverty, how it is linked to energy issues and can be solved by better integration and partnership work and to support social workers with energy issues

ASSIST Background

7. European IEE project SeRENADE

**Duration:** January 2006 to February 2008

**Partners countries:** AUSTRIA, BULGARIA, FRANCE, ITALY, SLOVENIA, SWEDEN, UK

**Strategic Objectives:** Study and review existing advice provision in Europe; Make know-how on delivering advice easily available through an online energy advice toolkit and forum for exchange of knowledge and experience between skilled practitioners and new providers; Deliver a pro-active dissemination programme to promote the benefits of advice and the resources available. In terms of advice subject matter, the project is concerned with energy efficiency, renewable energy and sustainable transportation/mobility. Three client groups are considered: households, small and medium enterprises and local authorities.

8. European IEE project EPEE

**Duration:** December 2006 to November 2009  
**Partners countries:** BELGIUM, FRANCE, ITALY, SPAIN, UK  
**Strategic Objectives:** 'Fuel poverty' is a problem which can be tackled alongside gas emissions by retrofitting old buildings. This project focuses on low-income tenants who are victims of fuel poverty because they cannot afford to make improvements. Unless all actors get involved, both energy consumption in the home and greenhouse gas emissions will continue to rise, aggravating fuel poverty further still. Though the phenomenon is not clearly defined across Europe, there is evidence of common trends such as unpaid energy bills, disease and self-disconnecting. The underlying goal is to identify the best and most appropriate mechanisms for each national context and to make fuel poverty a priority within national and European energy policies.

ASSIST Background

9. European publications

ASSIST Background

10. Ongoing European initiatives

**European Energy Poverty Observatory (EPOV)**

**Duration:** 40 month project, starting from December 2016,

**Objective:** engendering transformational change in knowledge about the extent of energy poverty in Europe, and measures to combat it

**Consortium:** Germany (Wuppertal Institute), Luxembourg (Intrasoft International), Netherlands (Ecofys), UK (The University of Manchester – coordinator; National Energy Action) + EU (European Policy Centre)

The core partners will also be supported by a range of other energy poverty organisations: France (Alphéeis), Greece (Centre for Renewable Energy Sources and Saving), Spain (Asociación de Ciencias Ambientales, ECODES), France (Energy Action Project – EnAct; Energy Action Ltd) + EU (Housing Europe, EU Fuel Poverty Network - EUFPN)
ASSIST Overview

Topic: EE-06-2016-2017 «Engaging private consumers towards sustainable energy»
Duration: 36 months (1 May 2017 – 30 April 2020)
Consortium: 12 partners coming from 6 countries (Belgium, Finland, Italy, Poland, Spain, UK) and 1 European network
Objectives: Contribute to tackle the main barriers of the energy market faced by vulnerable consumers through the training, networking and action of an innovative professional figure to support vulnerable consumers in their domestic energy consumption, the Vulnerable Consumers Energy Advisor (VCEA).
Website: www.assist2gether.eu
