

Join an international network of qualified home energy advisors

BECOME A HOME ENERGY ADVISOR

Improve the **health and comfort** of those you visit by offering energy advice, and referring clients to the support they need to make their homes **more energy efficient**.

Offering simple energy advice can transform a person's quality of life. Whether you simply help make the change to efficient lighting, or find funding for a whole new heating system – adding this vital skill to your repertoire will increase the impact you can make.

You will get

Full training, including

- hands-on experience of heating controls and energy monitors
- a broad knowledge of domestic renewable energy options
- shadowing one of Warm & Well's energy advisors during a home visit

An energy saving toolkit

- appliance monitors
- LED lightbulbs
- energy saving guides

and many more benefits and opportunities for your organisation
